Calgary, Alberta T2P 3R7

Dear Sam:

Just a quick note to let you, Peter and your staff know how much I have appreciated the assistance and advice you provided during my stay in your offices. I found your offices very comfortable to work out of with all the facilities and programs needed for an effective search for employment and career change. The staff was extremely courteous and knowledgeable and it was truly a pleasure to work with them.

The job search programs developed by yourselves have proven very effective and I can say that during my short stay in your offices I have learned many things that I find myself applying more and more to my job and personal life. The time I spent in your offices was truly a highlight of my career, which I will always treasure.

I have been and will continue to recommend your firm to people in career transition and I would not hesitate to acquire your services again.

Keep up the good work, I really can't think of any improvements you could make, except to put one more wooden duck in your conference room.

Thank you for being there for my family and me.

Sincerely,

Honory Beaujot
